Kerry Sullivan, President
Bank of America Charitable Foundation
Bank of America Corporate Center
Charlotte, NC 28255

Dear Ms. Sullivan,

I know we share an interest in bringing an end to the Protest Bank of America movement. On the pro-life side, we do not believe that an organization as hyper-controversial as Planned Parenthood is a reasonable entity for inclusion in a corporate matching grant program. Planned Parenthood is the leader of the U.S. abortion industry—323,999 abortions in 2014. Additionally, for nearly a year, Planned Parenthood is been embroiled in controversy over its role in the market for fetal organs from aborted babies. The pro-life/pro-abortion contention has subsequently reached an unprecedented level. I would not have launched ProtestBOA last September were it not for revelations about Planned Parenthood harvesting and marketing fetal organs.

Additionally, I want to note that Planned Parenthood is so unlike typical nonprofits with its huge involvement in partisan politics. In fact, Planned Parenthood CEO Cecile Richards has been on leave from Planned Parenthood to join the Hillary Clinton campaign for the presidency. I enclose a few items regarding this involvement. These are only a drop in the bucket.

I ask you to look at this short video in which Cecile Richards endorsed Hillary Clinton.

<https://youtu.be/qvML-lldWOI>

Using my tax dollars, Ms. Richards is all-in for unrestricted abortion. Using my retirement and small donations to my 501c3 non-profit, I will do what I can to counter the shedding of innocent blood. The controversy is deep and will be prolonged. I simple ask Bank of America to not take sides in this battle.

I ask you to reconsider your inclusion of Planned Parenthood in your matching grants program. I am well aware that you do not include all 501c3 non-profits as designated by the IRS. Planned Parenthood should not be in the included category.

I will be in Charlotte next week to protest. I would welcome the opportunity to visit with you to resolve the issues of Protest Bank of America.

Sincerely,

John Pisciotta
