

Dear Drew,

Mitch McConnell promised to ban abortion after 20 weeks if anti-choice Republicans took over the Senate.

Now he's in a position to do it.

The 20-week abortion ban has already passed the House of Representatives, and with only 37 pro-choice votes left in the U.S. Senate, there's no guarantee we can stop it there.

This is going to be a huge fight. That's why we're aiming to raise \$150,000 by the end of the year--to make sure we have the resources to keep the abortion ban off the president's desk.

Seven in 10 Americans support the right to choose. That's why almost every anti-choice candidate tried to conceal their extreme views on abortion, to make themselves acceptable to a majority of voters.

But now that anti-choice Republicans control the Senate, we're going to see their true colors.

Mitch McConnell has said that a 20-week abortion ban will be a top priority. But that could be just the beginning. And you can be sure they'll do all they can to block any pro-choice appointments to the federal bench or the Supreme Court.

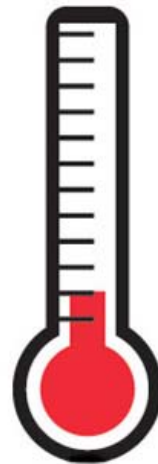

This will be the fight of our lives--and we need to get ready.
