2,411 Aborted Fetal Remains to be Buried

(South Bend, IN)- The 2,411 aborted fetal remains discovered on the property of late abortionist Dr. Ulrich Klopfer will be memorialized at a burial service on Wednesday, February 12th at 1:00 p.m. at Southlawn Cemetery located at 61430 US 31 S., South Bend, IN 46614.

Attorney General Curtis Hill announced that he will offer remarks on behalf of the State of Indiana. Following AG Hill's remarks and press conference, Right to Life Michiana (RTLTM) will lead a short prayer service.

"While we are grateful to the Attorney General and Palmer Funeral Homes for giving these children a dignified burial," RTLTM Outreach Manager Melanie Garcia says, "We are devastated that we have to bury them. If it wasn't for the evil of abortion, these children would be in their late teens. They'd be starting their first years of college. Instead, we're burying their bodies."

For those unable to attend on Wednesday, Right to Life Michiana, Right to Life Northeast Indiana, and Lake County Right to Life will host a memorial service at Southlawn Cemetery on Sunday, February 23rd at 3:00 pm.

"We are grateful but saddened for this opportunity to mourn for the lives lost and the families broken by the violence of abortion. This is a tangible reminder of the inhumanity and horror of the abortion industry. Abortion is the ultimate form of dehumanization; it poisons, dismembers, and kills the most innocent among us," RTLTM Executive Director Jackie Appleman says, "We are burying 2,411 human remains; we are not burying 2,411 "missed periods", "pregnancy tissue", or "uterine contents."

Right to Life Michiana, Inc. is dedicated to the social welfare by promoting life through outreach, education and advocacy. It is the central organization representing pro-life interests. Its goal is to protect all human life – from fertilization to natural death.
