BREAKING: PAAU'S NEW EXCLUSIVE UNDERCOVER FOOTAGE OF VIRGINIA ABORTIONIST

WASHINGTON, DC – (7/11/2025) Progressive Anti-Abortion Uprising (PAAU) released exclusive undercover footage [obtained by activists at Repro Rising's 2025 gala](#) in Arlington, Virginia. The footage captured a conversation with former-Texan abortionist Jessica “Lou” Rubino, where she eagerly answered questions about how her clinic, Meadow Reproductive Health, kills pre-born babies up to 15 weeks, with plans to advance up to 18 weeks.

Edited footage of this conversation can be viewed on PAAU's Youtube [here](#), and the full video can be viewed [here](#).

Caroline Smith, Executive Director of PAAU, said, “This video showcases what the abortion industry does best: dehumanizing the pre-born. This traveling second-trimester abortionist was excited to talk about the ‘fun’ and ‘easy’ process of dismembering children, and how rewarding it was to see their happy parents afterward. Virginia is headed down a very dark path with the upcoming abortion amendment, and we must stop it!”

Thomas Hill, PAAU summer intern, said, “This opportunity to see the inner workings of the Abortion-Industrial Complex up close was horrifying but deeply educational. My fellow activists and I were able to obtain critical information about the Virginia abortion industry’s plan to pass a radical abortion amendment in 2026. Pre-born justice can be achieved if we continue to expose the darkness behind the abortion genocide.”

Activists interacted with pro-abortion donors from the Feminist Majority Foundation, Birth in Color, George Mason University, REPRO Rising, and other organizations. Additionally, they conversed with leading abortion advocates like Hadley DuVall and Jennifer Boysko.

Further undercover footage is forthcoming.
