June 12, 2014

Dear Colleague,

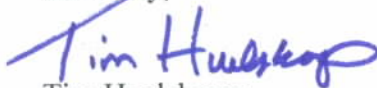

I want to draw your attention to this disturbing undercover footage that Live Action (an investigative advocacy organization) released yesterday, which exposes shocking and harmful advice that Planned Parenthood "counselors" have been giving minors on sexual matters. In what is the first of several releases to come, Planned Parenthood workers encourage what they believe is a 15-year-old girl to engage in violent sexual behavior known as "BDSM" (bondage, discipline, dominance, submission, sadism, and masochism). See video here (Warning: Content is graphic and viewer discretion is advised).

While Planned Parenthood claims to provide "effective sex education for adolescents," it is disturbing to know that this translates into the explicit promotion and normalization of harmful and risky sexual behavior to our teens. This video discloses what Planned Parenthood has been publically teaching our teens through its online materials, seminars, and training videos.

Toting the banner as the nation's "largest provider of comprehensive sex education in our communities," Planned Parenthood is lavishly funded by the American tax-payers every year. According to its latest annual report, Planned Parenthood received \$540.6 million last year from combined state, local and federal taxpayer funds. Through various funding streams including the mandatory Teen Pregnancy Prevention Program and the Personal Responsibility and Education Program, American taxpayers are pumping millions into Planned Parenthood's so-called "culturally appropriate sex education programs."

As a father of four, I believe parents should be concerned about what their children are being exposed to in the name of "safer sex." Americans should not be forced to pay for such an irresponsible organization that endorses unsafe and extremely questionable sexual practices for our teens.

Sincerely,

Tim Huelskamp  
Member of Congress
